The Course Coordinator
DTS 204, Department of Statistics
University of Lagos
Akoka, Lagos

Dear Sir,

LETTER OF COMPLAINT

I, ABDULBAASIT ISAH, with Matric No. 240805050, of the Department of COMPUTER SCIENCE wish to respectfully lodge a complaint concerning the recently released results for DTS 204, published on 18th September 2026.

According to the results, I received a grade of E in DTS 204 (Statistical Computing II). I scored 42, while I understand grading is subject to established criteria, I sincerely believe that these grades do not accurately reflect the effort, time, and diligence I invested in this course.

I was consistent in submitting all assignments, actively participated in class, and studied intensively for my exam. I genuinely felt confident in my performance and expected a higher grade, in recognition of my efforts and understanding of the material.

Beyond the grades themselves, I am writing from a place of academic concern and personal resolve. I am truly determined to improve my GPA and make a strong comeback. Every grade counts significantly toward this goal, and I hope you will kindly consider a review of my performance in this course.

Please, Sir, I appeal to your sense of fairness and ask that my scripts be re-evaluated. I remain hopeful that your esteemed office will grant this request.

Thank you very much for your time and consideration.

Yours sincerely,
ABDULBAASIT ISAH
